CENTRAL OF GEORGIA RAILROAD BRIDGES

Savannah, Chatham County, Georgia

Owner: Central of Georgia Railway Company.Date of Erection: 1852/58.Architect: Probably by Messrs. Augustus Schwab & Muller,
Engineers.Present Condition: Good.Materials of Construction: Foundation and supporting pylons
and arches of brick.Additional Data: Original plan with other records of the rail-
road company thought to have been destroyed by Sherman. The
bridge built in 1852 has elliptical arches of 30 foot span.
The bridge built in 1858 about 100 yards north of the first
bridge has flat segmental arches of 48 foot span. The bricks
used are commonly known as "Savannah Greys". Article in
Savannah Morning News Oct. 7, 1934 by Ralph S. Ellifrit.
